tional provision for the custody of the jail and house of correction in Rockingham County. This motion was seconded by Miss Spollett and voted in the affirmative. The statute was read by Mrs. Palmer who moved that the Delegation adopt the provisions of the law. This motion was seconded by Miss Spollett. Sheriff Sampson was called on to explain the provisions of the statute in which he was involved. The County Commissioners expressed agreement with the arrangement and it was unanimously voted to adopt paragraph II, Chapter 316 an amendment to RSA 619:7

The next subject under consideration was the sale of the County Buildings. Mr. Osborne made the motion that the County Commissioners be authorized to sell the Records Building to the Town of Exeter for \$50,000. Mr. Kimball of Derry seconded the motion and the voice vote was affirmative Mr. Bartlett reported that the sale of the Court House was still under consideration by prospective purchasers and it was voted to lay on the table the subject of the sale of the Exeter Court House. In regard to the sale of the Portsmouth Court House, Mr. Bartlett reported that soon after the public notice had been given that the three county buildings were for sale, a bid of \$50,000 had been received from the Seaward Construction Company. Sometime later a bid of \$55,000 was received from the Piscataqua Savings Bank. A notice had been put into the paper that no further bids would be received after the time of the Delegation Meeting on Feb. 28th. Mr. Bartlett brought a sealed envelope with him to the meeting and opened it in front of all of us. It was a bid from Seaward Construction Company for \$56,000. Mr. Osborne moved that the highest bid be accepted and that the County Commissioners be authorized to sell the Portsmouth Court House for \$56,000. Motion seconded by Mr. Kimball of Derry.

Mr. Keefe commented that it seemed unfair that the Seaward Company had been forced to up their bid. Mrs. Palmer requested Mr. Osborne to withdraw his motion and that the building again be put out for bid. He refused and the previous question was called for. By roll call there were 36 voting in favor, 1 passed and 1 opposed.

Chairman Donald Ring having arrived, assumed the chair. The Delegation then took under consideration Chapter 260 of 1965 laws which requires the approval of the delegation to require that standard size plans be filed at the Register of Deeds. On motion by Mrs. Greene, seconded by Mr. Osborne, the option to approve RSA 478: 13- a as amended was adopted.

Mr. Herman W. Parker and Mr. John York of the Soil Conservation Service were allowed a few minutes to speak of their service and to show pictures of their work in Soil Conservation.

Mrs. Holland and Mr. Ed Upham spoke briefly in opposition to the recommended cuts in their respective budgets. Mr. Frank Nay and the Hiltons were also present but made no comments. The Delegation then went into executive session and Miss Doris Spollett as Chairman of the Finance Committee was asked to preside. Each item of the recommended budget was considered and on motion by Mr. Eastman the \$2,000 which the Executive Committee had recommended to be cut, was restored to the budget of the Cooperative Extension Service. Speaking in favor of this motion were; Mr. Kimball, Mrs. Cressy, Mr. Gay, Mr. Underwood, and Mrs. Palmer. All other items were adopted as recommended by the Executive Committee, making a total budget of \$1,587.911.19.

The Delegation recessed for dinner at 1 o'clock and reconvened at two p.m.

At this time the figure of \$644,091.99 was accepted as the estimated revenue for 1966 making \$943,819.20 the amount to be raised by County Tax.

On motion by Mrs. Greene it was voted that any pay raises shall be given only after the County Delegation has adopted the annual budget and approved an effective date for such raises and that all department heads shall be notified of this action.

It was voted that a letter be sent to each department head instructing them to live within their budget.

On motion by Mr. Junkins it was voted that all monies received from the sale of the three County Buildings be added to the Building Fund and the County Commissioners, with the approval of the Building Committee, be authorized to use the same for the completion of the new County Building and that all unexpended funds shall be used to reduce the bond and interest payments of said building.

On motion by M. Collishaw it was voted that the County Commissioners, with the approval of the Building Committee, be empowered to sell by public auction any surplus furniture from the old buildings and the funds received from this sale shall be used in completing the new building or to reduce the bond and interest payments on this new building.

In proper form, Mr. Bartlett was granted the right to sell a right of way to an adjacent property owner.

The Commissioners were given permission to trans-

fer to the Building Fund the interest which has accrued on investments.

At the request of Mr. Bartlett, it was voted that even after the completion of the new County Building, the present Building Committee should continue in existence to work with the County Commissioners in a study of the effect of Medicare in any increase in the demands on the County Home and Hospital.

It was voted that the County Commissioners, the Building Committee and the Town of Exeter negotiate and reimburse the town for the cost of sewer installation in the new building.

It was voted that the County Commissioners should negotiate for the sale of the Hardy property.

Mrs. Greene moved, seconded by Mrs. Cressy, that the Chairman appoint a committee of three to work with the Probate Court system. Mr. Jenkins amended this motion by adding, "and to study the fees in relation to waivers in the Probate Department." The motion passed as amended.

Executive Committee
Wednesday, Nov. 2, 1966
10:00 A. M.
Rockingham County Building
Exeter, N. H.

A meeting of the Executive Committee was held on
the above date at the new County Building.

Mmbers present were: Miss Spollet,t Mr. Gay, Mrs.
Weeks, Mr. Collishaw, Mrs. Gelt, Mrs. Greene, Mr.
Keefe, Mr. Osborne, Mrs. Palmer and Mr. Sewall also
Commissioners Bartlett and Hall.

Frank Nea appeared before the committee. He stated that in all his years as Register of Probate he has never before made a request to overspend his budget appropriation. He explained that at the order of the Court he had been required to purchase new and different forms although he had an adequate supply of the old forms on hand. Mr. Keefe made the motion, seconded by Mrs. Green ,and it was voted in the affirmative that the request of the Register of Probate be accepted and that he be authorized the expenditure of money necessary to pay the bill which will be in excess of \$,3000. The money to be taken from surplus funds. It was also voted that this payment be accompanied by a letter of protest at the poor timing of the request and

an expression of our reluctance to incur additional expenses which will cause the appropriation of the Register of Probate to be overexpended.

The budget report was considered item by item and approved as presented. With a very few exceptions the expenditures are well under control. There will evidently be a deficit in the expenditures of the Commissioners due to extra time put in during the finishing of the new building and extra travel necessary for Mr. Hall.

At the request of the Commissioners, the Committee approved: (1) that \$800. received from the sale of a fork lift be transferred to the Milking Center account. (2) that funds be transferred from the Building Committee Account to Legislative Delegation Expense. (3) that permission be given to use the unappropriated receipts for 1966 if necessary.

Mr. Bartlett explained under what conditions Rockingham County had agreed to participate in the Medicare Program. He reported that the Hardy house had not been sold and explained why they had delayed. He also reported that Mr. Marchard who owns property adjacent to the land which we acquired from the State and on which our New Building is located, would like to buy back a piece of our property which was purchased from him by the State. This is an irregular shaped piece which added to his present holdings would straighten his property lines.

The meeting adjourned at 11:50 and travelled to the County Home for dinner. After a delicious meal a tour of the buildings was made to observe especially the improvements in the Mitchell Building and in the Jail.

Edna B. Weeks, Clerk

ROCKINGHAM COUNTY REPORT
COUNTY COMMISSIONERS REPORT

The Rockingham County Commissioners, as requested by statute, submit the annual reports of the County Officers for the year 1966.

The year 1966 has not been an easy one, with completion of the new County Building and moving all of the departments into the building created many problems.

The dedication services were held on July 31, 1966 and the many thousands who have visited this building have expressed only praise. It will serve the citizens of Rockingham County for years to come.

The demands for services offered by the County continue to increase. There is a constant need for re evaluation of these services in order that all may best be served.

Rockingham County Home continues to have a waiting list of many people in need of our facilities there. It appears that it will be several years before any expansion can be accomplished.

Cooperation that exists between County Officials and our vast County Organization has made for a very good form of County Government.

We wish to thank all of the Volunteer Organizations for the donation of their time so that our patients could enjoy many more pleasurable hours.

We also wish to thank all of our staff for their understanding and thoughtfulness during the year.

William S. Bartlett, Sr. Chairman
Russell J. Hall, Clerk

Board of Commissioners
Rockingham County
Exeter, New Hampshire

Gentlemen :

The big event during 1966 for the office of the Rockingham County Register of Deeds was moving to its spacious new quarters in the new County Building. The moving of more than 2,000 valuable books, delicate machinery, and over 50 articles of heavy equipment was taken in stride and handled along with other regular business during the week of July 5, 1966.

The new accommodations are not only beneficial to those members of the general public who use our office, but have given a lift to me and my staff in coping with the routine work of the office as well as inspiring us to meet the challenge of our general program of modernization.

We have, of course, handled the current work utilizing every possible modern method and procedure and so I will devote my report to a brief resume of our projects which are aimed at modernization of the older records in the office.

Approximately 6,000 plans have been recorded with this office since 1770. Reproduction of these plans, for the purpose of permanent preservation and record, was commenced in 1965 and will be completed this month with the delivery of microfilm aperture cards by Graphic Microfilm Company. This project was originally commenced with another service company at an estimated projected cost of \$35,000. It will be completed at a cost of approximately \$10,000. depending on the type of cabinet purchased for the new index for these reproduc-

tions. The approximate \$25,000. saving was accomplished by an analysis of the first work done by the service company, and further research for a less expensive and faster method. Although the end result is not quite as accessible for reference, it is felt the film cards, together with a reader, will provide the necessary reference at a considerable savings, and within a considerably shorter period of time.

With the completion of this project, all plans will be ready for the use and benefit of the public, with copies of all plans immediately available for sale as soon as the staff can create a cross reference index. This will allow the fragile, dry original plans to be placed in dead storage where they will not be subject to constant wear and tear by handling and further, with this method of handling, the plans are not subject to tampering which has occurred in the past on a few occasions.

In the 1965 legislature, I introduced a bill which would require all plans to be made in standard size on reproducible material. The bill was passed subject to adoption and approval by the individual counties. I am grateful that the Rockingham County Delegation adopted it because this legislation will be of immediate value in the processing of plans.

The within office microfilming of the instruments recorded, both for security of the valuable records and for inexpensive, immediate reproduction for the service of the public resulting in another item of income for the Rockingham County Treasury, was commenced in May 1966. We have succeeded in microfilming 1,400 of the 1,850 books entrusted to my care as Register. However, there is still a great deal of work to be done by the staff and myself to complete this immense task.

We also made some progress on the consolidation of the 1960-1964 five year index which had been conducted in 1965. With the completion of indexing the year 1960, alphabetical interfiling of the five years, and within office printing of the index will enable us to produce for the public the first consolidation of the indices of this department. However, pressure is increasing to create a modern alphabetical, consolidated index of at least the previous twenty years on which I have done a great deal of research. It appears to me that the most accurate and the least expensive means would be for a sufficient number of trained staff to index all the instruments under my supervision and interpretation. Then, this index could be serviced out to a computer center for alphabetical filing. Although this is a very complex, big project, it should be completed in the near future in order to place the records of Rockingham County in the status that the records of the fastest growing county in the United States should be .

I feel that I have accomplished a great deal in the office of the Register of Deeds since I took office in 1963. I am fully aware that what has been accomplished could only have been done with a devoted and loyal staff and with the cooperation of the County Delegation and the County Commissioners.

Sincerely,

Edith Holland

COST ANALYSIS REPORT
12 MONTHS ENDING 12-31-65

Foreword

This report and each of the accompanying comparisons are the result of a detailed cost analysis of the Rockingham County Home and Hospital.

The books of account are maintained in accordance with the recommendations of the American Hospital Association insofar as is practical at this time.

Mrs. Dorothy Hilton and Mrs. Gladys Sanborn have each put forth a great deal of effort to make this possible. Without their enthusiastic willingness to put in many extra hours in study and detailed accounting work the drastic revision that has taken place in the accounting office could not have been possible in such an economical manner as has been experienced.

There is no doubt that the immediate future will demonstrate that the best interests of the county have and Mr. George Hilton through their decision to make such improvements in accounting.

As another year of service to the Rockingham County Home and Hospital draws to a close, we again reflect with great pleasure and satisfaction the progress made. We are grateful for the cooperation of the Board of Rockingham County Commissioners and for their tireless assistance in aiding us through this challenging year.

We are grateful to the citizens of Rockingham County for expressing their gratitude to the Administration of this institution for the services offered to their families. The many contributions given to the patients such as birthday recognitions, visits to the institution by local civic groups, volunteer participation contributed to our Occupational Therapy program, holiday favors for the trays, Christmas parties, caroling and gift donations to mention a few, are deeply appreciated and we feel, so important in keeping a homelike, happy atmosphere.

We realize that many times the public has had to wait many long weeks before they could admit a loved one because of a waiting list, and for their patience we are grateful.

For the cooperation of all County and State agencies and other affiliated agencies, we are indeed thankful. Finally, we wish to thank the members of our staff who so loyally support us with their daily duties and without whom we sincerely feel this institution would not prosper and be the credit that it is to Rockingham County.

Respectfully submitted,
Dorothy F. Hilton Matron
George W. Hilton, Supt.

REPORT OF THE COUNTY ATTORNEY

The year 1966 saw a general increase in the work load of the County Attorney's office for Rockingham County. Although the proportion of major felonies and misdemeanors did not sharply increase over the preceding year, the County Attorney was active in litigation of many criminal cases together with the trial of civil actions involving the County.

In one major case, which was argued before the Supreme Court by the County Attorney, the County was held not liable for payment of certain charges amounting to an excess of Ten Thousand Dollars. This suit involved two counties and several towns and involved the question of liability relative to support payments.

The County Attorney's office was also active in giving advice to various law enforcement agencies and County officials, and was also instrumental in attempting to procure support for various persons on the welfare rolls.

It is the belief of the retiring County Attorney that the demands and duties of the office will entail a complete review within the near future and that either steps will have to be taken to upgrade the salary of the County Attorney, or provide him with an assistant to handle a part of the work load. The present County Attorney system is geared to a society and case load which existed thirty years ago and a general revamping will be required in order to modernize this very important office.

Respectfully submitted,

December 30, 1966

To The Honorable Board of
Commissioners of Rockingham County
Gentlemen:

Following is my report for the year 1966 as Sheriff
of Rockingham County:

During my eight years in office we have constantly
striven to improve our services to the people of the
County, and with the installation of our headquarters
in the new County Building, we have been able to ac-
complish many of our objectives.

Our communication facilities now surpass any with-
in the County. with base stations located in Brentwood,
Derry, Exeter, Hampstead, Portsmouth, Salem and
Windham. Sixty-five mobile units operate in twenty-
eight of the cities and towns in the County, all ser-
viced by our headquarters.

Our teletypewriter, connected with all major cities
throughout the United States, enables us to maintain
a constant flow of vital data to the many police de-
partments linked with this department.

Our radio room is manned twenty-four hours a day,
thus providing instant service, by radio or telephone,
to all within the County for such aid as may be re-
quired.

Our Crowd Control Unit continues to be a great
asset to the County and has been mobilized several
times in the past year.

In 1967 I plan to present a program to the County Commissioners and the County Delegation which would enable the Department to operate on an increasingly efficient status. Under this proposed program deputies would be placed on a salary, thereby eliminating the per diem pay, and civil fees would then revert to the County.

At this time I should like to express my sincere appreciation to Alvin E. Taylor, County Attorney, for his assistance and cooperation during his term of office, and to all law enforcement officers and agencies with whom we have been associated this past year.

Respectfully,

George Sampson, Sheriff

CHAPLAIN'S REPORT

To the Superintendent and Commissioners
of the Rockingham County Home and Hospital:

The following report is respectfully submitted and comprises a summary of my pastoral activities with Catholic patients and residents of the County Home and Hospital. The period covered in this report extends from January 17, 1966 through December 31, 1966.

The primary pastoral concern and religious activity at Mitchell Memorial Hospital was the administration of the Sacrament of the Sick to gravely ill patients, commonly referred to as "the Last Rites". The number of patients requiring this sacrament, totalled eighteen.

Secondly, during each month of the period covered in this report, Holy communion was distributed and Confessions heard for patients and residents of the Home and Hospital and inmates of the jail. The average per month receiving these religious ministrations was thirty-five. The total number of Catholic personnel contacted in this manner was approximately four hundred and twenty.

In addition, pastoral visitations were conducted to patients and residents of the institution. On some occasions of these visits, rosaries, medals and religious cards were distributed. On other instances, these visits were of a purely social nature. Twelve to fifteen such visitations were made by me.

On eight or nine other occasions, my services were requested by inmates of the County jail or relatives of inmates for counseling purposes.

In closing this report, Mr. Hilton, I would like to add a note of personal gratitude to you, to the Mitchell Memorial staff, nurses and attendants at the Home and officials at the Jail, both for the kindly cooperation and the inspiration provided me in witnessing a warm and devoted care in a difficult service to you and their fellow man.

Sincerely,
Rev. L. A. Langevin,
Pastor

CHAPLAIN'S REPORT

To the Honorable Board of
Commissioners of Rockingham County:

Having assumed my duties as Protestant Chaplain of the Rockingham County Home and Hospital in March of 1966, I hereby submit this report of my activities, as follows:

I have conducted worship services each alternate Sunday for those who are able and desirous of attending. While the number attending these services has varied considerably, much interest is manifest and spiritual help is gained, I am sure.

Visitations have been made regularly to the patients. Besides showing interest in a friendly chat, I have provided spiritual counsel and have prayed with those who were receptive. Inspirational literature has also been provided on the occasion of these visits.

Likewise, I have made myself available on a call basis to those needing special spiritual help at a time of crisis. This, I believe, is one of the most valuable aspects of my ministry here.

In helping to care for the spiritual needs of the patients I have been ably assisted by several layfolks who have faithfully ministered in music in the Home and Hospital each week for over five years. They are Mr. and Mrs. George F. Rogers, Mrs. Eugene S. Beless, Miss Marjorie Beede and Miss Minerva Tuttle. Other musical groups which have assisted are: the Exeter Congregational Youth Choir, the Camp Se-Sa-Ma-Ca Concert Chorus and various groups from the Brentwood Baptist Church.

During recent weeks when I have been prevented from doing my work because of my physical condition several members of the clergy have graciously consented to render essential religious services for me. Among these clergymen are: Rev. George Booth and Rev. Harry Ford of Exeter, Rev. Kenneth MacDonald of South Hampton and Rev. Robert Swanson of Newfields.

Recently, the Tyndale House Publishers have agreed to supply copies of "The Christian Reader Digest" without charge to patients who request these splendid inspirational magazines.

In closing, I wish to thank you for this opportunity of Christian service and the Superintendent and staff for their cordial cooperation which have made my efforts to be of service a pleasure.

Gratefully yours,

The Reverend Z. Richard Henley

MEDICAL DIRECTOR'S REPORT

To The Honorable Board of
Commissioners of Rockingham County:

Gentlemen:

The medical staff have had a busy and productive year. Doctors Sander and Lee will continue to serve on the staff along with myself.

The patient load has stayed at full capacity of 214 at all times with a constant waiting list fluctuating from 15 to 25 or 30 at times. The majority of patients on admission are either partial or total bed care, which forces us to push more patients to custodial care who should be in the nursing home area.

The program of routine laboratory work on all patients for blood and urine tests on admission and at six month intervals has proved to be a sound one, enabling the staff to pick up many cases of hidden diabetes, not otherwise discernable, as well as other diseases and disorders.

The cranberry juice program inaugurated for all patients on catheter drainage has proved beneficial to the patients as well as resulted in considerable saving in cost of drugs and catheters.

A general tightening of prescribing of medication for prisoners has produced good results in this area.

The dental program has progressed well this year as well as Dr. Perry's program for patients needing glasses.

The medical staff is greatly appreciative of the interest and cooperation of the administration in helping to continually upgrade good patient care.

Respectfully submitted
John W. Blaisdell, M.D.

Medical Director

To: The Honorable Commissioners
Rockingham County

For one year a Rehabilitation Program has now been in operation at the Rockingham County Jail in Brentwood. In this period of time, however, it is difficult to properly evaluate such a program.

As director of this program I am deeply indebted to the Commissioners, the Sheriff, and the Superintendent of the County Jail for their understanding and support.

From our vantage point we feel that there are several reasons why these young men are in trouble. A vast majority of these offenses would not have been committed if the young men had not been involved with alcohol. Also, another contributing factor is that we are here dealing with grade school and High school drop-outs. This suggests, I believe, strong conflicts with and against authority.

In our program we have introduced an A.A. program which meets every Tuesday evening. These sessions have been well attended. In our counseling sessions we have tried to establish a respect for authority, this means "growing up." In addition, we feel that this program is working because we meet with the inmates in the capacity as a non-authoritarian person.

The Department of Employment Security of the State of New Hampshire has given invaluable assistance to our program. The testing program determines aptitudes and potentialities of an individual for acquiring knowledge and skills.

Upon his release the subject, if unemployed, reports

to the Employment Security in Portsmouth and on the basis of his test results he is directed to a job to which he is best suited.

As Rehabilitation Counselor we recognize that we have a long way to go, but we are anxious to have regular Religious Services for the various faiths represented, and in addition we are planning an educational program for inmates in a short-term institution.

Respectfully submitted,

Luther B. Pennington
Rehabilitation Counselor

Rockingham County Commissioners
Exeter, New Hampshire

Gentlemen:

First, I wish to thank the Commissioners, Sheriff Sampson, the Turnkeys and Guards and many of the prisoners for the assistance given to me, I have been in Law Enforcement for 15 years but being Superintendent of the Jail is quite different and they have made my job much easier.

Since being appointed in August, the Jail and office have been thoroughly cleaned and painted, the shower room has been remodeled and improved, cabinets and bins have been put in for more storage space, and closets made as well as the Clothes Room.

An AA program is being carried on quite successfully and many of the men have taken the Aptitude test with the D.E.S.

The morale of the guards and turnkeys is very high and that of the prisoners on the whole is very good.

I would like to see Church Services conducted weekly as we have men of Catholic, Jewish and Protestant faiths.

In the near future I would like to see some Recreation-Equipment for the Jail as well as a place equipped with tools etc. for a Hobby Shop. This I feel is good for morale.

Rockingham County Jail has the reputation of being one of the best. I shall continue to try and make it the best.

Sincerely,
Frank H. McLeavy
Superintendent

AGRICULTURE

The Agricultural Agent is designated Office Manager. These duties include assisting the Extension Council in the preparation and presentation of an annual budget to the County Delegation; supervising the expenditure of the budget; supervising the clerical assistance in the office; assuming responsibility in procuring and maintaining adequate office equipment.

There are many agricultural fields in which the Agricultural Agent is responsible for educational programs. These include dairy, poultry, fruit, vegetable, livestock, horticulture, agricultural engineering, farm management, marketing, rural areas development, recreation, beautification, conservation, and rural civil defense. The Area Agent program in dairy, poultry and vegetables has relieved the County Agent of some programming responsibilities in these fields.

The Agricultural Agent works with other governmental agencies in the county. He aids the Soil Conservation Service by annually revising the general recommendations on seeding varieties and fertilizer. He also acts as secretary to the County Soil Conservation District.

The Agent is an ex-officio member of the Agricultural Stabilization Conservation Service County Committee. Cost-sharing practices involving seedings, liming and fertilizing must be approved by the Agent using soil test results as a base for recommendations.

The Agent serves in an advisory capacity on the Farm and Home Loan Administrative Board.

The Agent serves the Selective Service System by giving advice pertaining to agricultural problems and by completing draft deferment "Yardsticks" required for young men of draft age employed in agriculture.

The Agent reports local weather and crop conditions during the growing season to the New England Office of the Agricultural Statistician.

This information shows the main duties of the Agricultural Agent. A detailed annual report is available

for reading at the Cooperative Extension Service Office.

HOME ECONOMIC EXTENSION WORK

During 1966 participants in Rockingham County Home Economics Extension Work conducted 503 meetings with 9,066 in attendance. In addition, volunteer local leaders went to 7 subject matter training schools with 188 in attendance. Nineteen more Extension planning sessions with 422 participants were held for organization leaders who assisted in guidance of the county program. The value of the local leadership training system is apparent when they held 227 meetings with 3,187 present.

The leaders supplemented the teaching and organization efforts of the Extension Home Economist and the part-time Assistant Home Economist, who joined the staff in late January, engaged in a training period for several months, and then began independent teaching. The professional staff taught 276 of the above meetings with 5, 879 present. Guest speakers also assisted with program in other aspects of family living problems.

The education program for homemakers is open to all of the county's adult citizens interested in continuing their education. They may participate in several ways: by attending one of the thirty Home Economics Extension groups that meet monthly, or by attending other organizational groups sponsoring an Extension project. Another method is to attend special interest workshops of two to five days in specific subject matter fields of interest to the individual.

A homemaker may request Extension Service Bulletins for her use without attending a meeting. She has

access to assistance in her homemaking problems through office or home visits, telephone calls, correspondence, WENH-TV programs, County Extension radio programs over WKXR, news articles, subject matter circular letters on foods, clothing, human relations, home horticulture, exhibits, tours, and an encampment.

During 1966 the annual statistical report showed: 807 consultations to provide information, advice, or guidance on problems of individuals and families. At least 457 consultations were provided on problems of organizations and agencies in the county. Over 8,907 bulletins and 26,337 circulars were distributed on request.

The subject matter programs in which there was emphasis in 1966 were: convenience food selection and use, buying meat, freezer use, nutrition, vegetable preparation, weight control, family and community health and safety services and resources, consumer buymanship in clothing, clothing construction, selection, and care, and use of sewing machine and attachments.

In home management advertising and the consumer were discussed, resilient floor coverings, wall finishes, electricity usage, closet storage, financial planning, closet storage, and basic facts on deeds and wills. Projects in home furnishings concerned buymanship, care, and reconditioning of pieces via reseating, slip covering, refinishing, or upholstering. In human relations work emphasis were on ways of improving family communications, transmitting values to children, child guidance, and analyzing the jobs of a homemaker in interpersonal relationships. There were also public affairs emphasis on town affairs, library facilities,

conservation and natural beauty, zoning principles, taxation policies and international relations. There were programs in home horticulture, family recreation, and developing markets for handicrafts to try to supplement craftmen's income.

The Home Economics Extension groups voluntarily gave a \$200. scholarship to a Kingston girl, majoring in Home Economics at U. N. H. This was their eleventh award. Homemakers are encouraged to take an active interest in their community's resources and problems as well as in their own family's developmental needs and resources to meet their own problems in a changing world.

4-H YOUTH DEVELOPMENT WORK

1915 — 1966

The aim of 4-H Club work is to develop useful citizens through projects and activities.

The 4-H's stand for Head, Heart, Hand, Health — Four Fold Development. 1966 was another "Make the Best Better" year.

Craft, clothing and food projects as usual had the biggest enrollment with Horsemanship finishing in fourth place and garden fifth place.

Activities included: — Camping, Community Service, Demonstrating, Exhibiting, Judging, Sports and Parties, Tours and Trips.

Every member enrolls in one or more projects and takes part in club meetings, and many Recreational and Educational activities.

FORESTRY

With the increased interest in conservation or wise use of our natural resources on a county wide basis, comes an increase in demand on the time of the County Forester and his half-time assistant. Town Conservation Commissions, the newly established Rockingham County Woodland Owner's Association, and Recreation Commissions are requesting information on multiple use management of forest land. This is a method of land management which results in the greatest benefit to the largest number of people over the longest period of time. In a county such as Rockingham, growing in population faster than most other countries in the nation, multiple use of forest land is a logical approach to a limited land area problem.

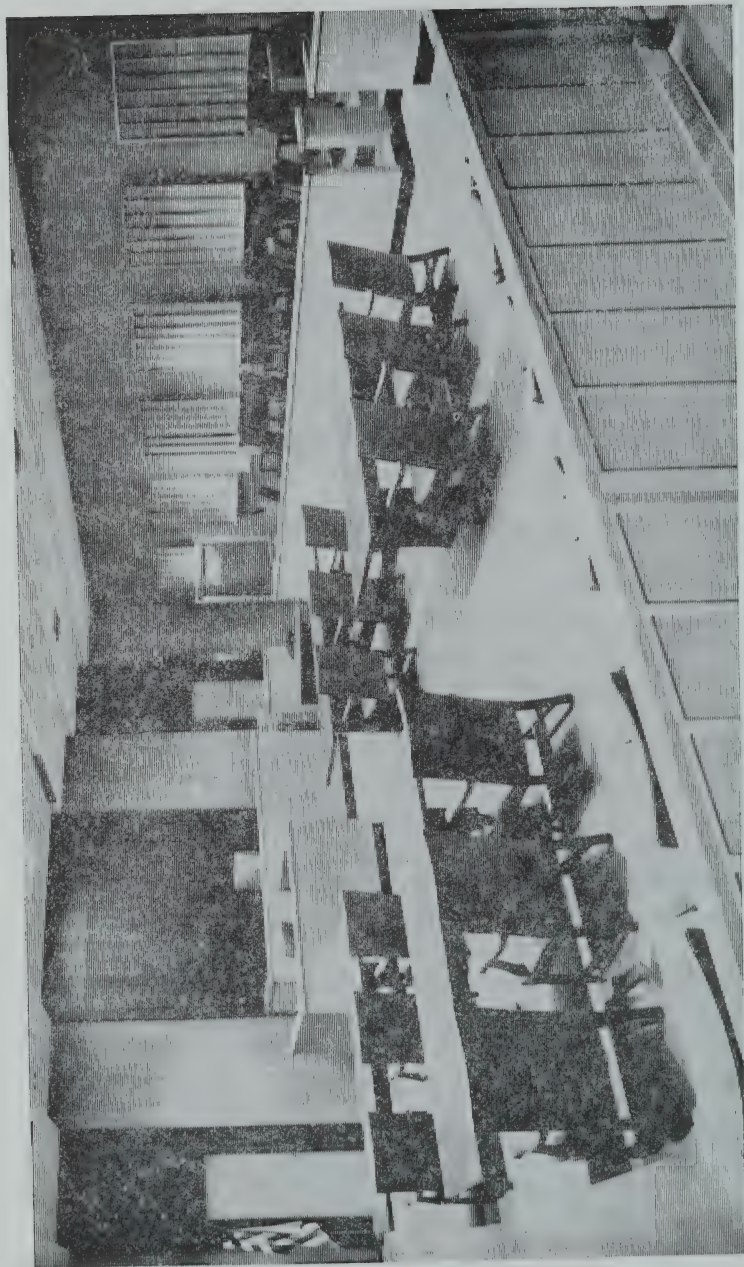

In order to efficiently meet the increased demand on our time, the foresters propose to spend more time working with groups, which necessitates spending less time with individual landowners having individual problems.

A recent pilot project has proven that landowner training schools in subjects such as dendrology - tree identification, ecology - the relationship between organisms and their environment, silviculture - the art of producing and tending a forest, are attracting sufficient attendance and interest to warrant holding such sessions within the county.

Teaching such basic subjects to a large number of landowners, would allow the forester more time to discuss complex problems on an individual basis. Outdoor classrooms for multiple use forest management could be established in several towns throughout the county for the convenience of those attending. Permanent demonstration areas for various management practices could be used on a repeat basis with the cooperation of landowners.

In an effort to maintain existing levels of staffing, we will attempt to handle our workload with emphasis on educating groups.

We hope this brief resume of our programs have helped you to understand the work of the Cooperative Extension Service here in Rockingham County. Should you desire additional information any of the Agents or office staff will be glad to assist you. It is our credo that we help people to help themselves through education.

Shown here is one of two Superior Court Rooms which have brought widespread favorable comment from Jurists, Lawyers and citizens throughout New Hampshire. These rooms are looked upon as a new dimension in respect for the Law.
